Education

Dnyanshree Institute of Engineering and Technology <i>B.Tech-Computer Science Engineering</i>	2021-2025 <i>CGPA-7.5</i>
S.P.V.N jr college Baramati <i>Higher Secondary Education</i>	2021 <i>Percentage-89.40</i>
Saraswati Vidyalaya Koregoan <i>Secondary School Certificate</i>	2019 <i>Percentage-84.20</i>

Technical Skills

Languages: Python, Java, HTML/CSS, JavaScript, SQL

Tools/Technologies: VS Code, Eclipse, Jupyter Notebook, IntelliJ Idea, Android Studio, Git, Github

Key Projects

Course Outcome Attainment System <i>HTML, CSS, Javascript</i>	09 2023-11 2023
- Developed a web-based Course Outcome Attainment System that allows educational institutions to track and assess student performance against defined learning outcomes. - Built secure login and access control mechanisms to ensure that only authorized users can access specific features of the system. - Implemented algorithms to calculate the attainment levels of course outcomes based on student performance data, providing detailed reports and visualizations.	
Heart Attack Prediction <i>Python, Tkinter (GUI), Scikit-learn, Pandas, NumPy, Matplotlib</i>	05 2024-06 2024
- Designed a user-friendly graphical user interface (GUI) using Tkinter. - Built and trained a logistic regression model using Scikit-learn to predict the likelihood of a heart attack based on features such as age, cholesterol levels, blood pressure, and lifestyle factors. - Provided a tool for early detection and risk assessment of heart attacks, potentially aiding in preventive healthcare measures and personalized treatment planning.	

Internship

IBM SkillsBuild internship with CSRBOX <i>Traniee</i>	06 2024-08 2024
- Assisted in collecting, cleaning, and analyzing large datasets to support business decision-making processes. - Used Python (Pandas, NumPy) and SQL for data manipulation, querying, and analysis. - Conducted exploratory data analysis (EDA) to identify trends, patterns, and anomalies in the data.	
Squirrel Info Technologies Private Limited <i>Traniee</i>	09 2022-10 2022
- Gained hands-on experience in Java programming, focusing on object-oriented principles, data structures, and core Java concepts. - Participated in code reviews, following best practices in coding standards, and understanding software development lifecycle. - Learned and implemented Java Collection Frameworks, such as Lists, Sets, and Maps, to manage and manipulate data efficiently.
