Skills

- Python
- SQL
- Power BI
- MySQL
- Jupyter
- Colab
- VS Code
- DSA
- Database Management Systems
- Artificial Intelligence
- Machine Learning
- Data Science

Profile Summary

AI & Data Science graduate with hands-on experience in analytics, machine learning, and data-driven decision-making. Skilled in Python, SQL, Power BI, and end-to-end model development with strong communication and problem-solving abilities.

Work Experience

Programmer Analyst Trainee MAY 2025 - AUG 2025
Cognizant , Remote

- Completed 12-week training in Python, SQL, Unix, Data Warehousing & ETL.
- Worked on scripting, database operations, and problem-solving assignments.

Advanced Data Analytics Intern FEB 2024 - APR 2024
EY-GDS Edunet Foundation

- Implemented Exploratory Data Analysis on a Space Exploration Missions dataset using Power BI.
- Integrated and pre-processed data to improve accuracy, enabling insightful visualizations and analysis.

Data Science Intern JAN 2024 - FEB 2024
Cognifyz Technologies

- Built ML models (RF, LR, DT) for restaurant rating prediction; achieved **94% accuracy** with Random Forest.
- Conducted data cleaning, feature engineering & analysis for business insights.

Education

B.E. in Artificial Intelligence and Data Science JUL 2021 - JUL 2025
Vidya Pratishthan's Kamalnayan Bajaj Institute of Engineering and Technology, Baramati, Pune
CGPA: 7.74

Projects

Classification of Fashion MNIST Using ANN

- Built ANN with ReLU & Softmax to classify 10 clothing categories.
- Achieved **96% accuracy** using categorical cross-entropy.

AI-ML Prognostic Model for Agri-Horticultural Price Variability

- Forecasted 15-day prices using Linear Regression, ShallowNN & ARIMA ($R^2 \approx 0.95$).
- Engineered time-series features & deployed an interactive Streamlit app.

Certifications

- NPTEL: Python for Data Science
- NPTEL: Machine Learning
- NPTEL: Database Management System

Extra Activities & Achievements

Extra Activities & Achievements

- Committee Head, Music Club (led 20 members)
