X	General	Dnyaneshwar Vidyalay Kharwandi	Maharashtra State Board of Secondary & Higher Secondary Education, Pune	2018	79.2 %	I

Academic Projects

Title : AI-Based Resume Analyzer

Platform : Hybrid Programming

Duration : 1 Month

Description : Developed an AI-powered Resume Analyzer with React Native, React.js, Node.js, Express.js, Python FastAPI, and MySQL to automate resume screening and ATS evaluation. Implemented JWT-based authentication, role-based access, resume parsing, job description matching, ATS score calculation, keyword extraction, and missing skill identification using AI/NLP techniques. Integrated RESTful APIs to provide personalized resume improvement suggestions and recruiter-based candidate ranking. Designed a secure, scalable, and cross-platform solution to streamline the recruitment process and improve resume-job matching.

Project Repository : <https://github.com/AjinkyaSurase-AJ/AI-Resume-Analyzer.git>

Title : E-Commerce Web-Site

Platform : Java, Spring Boot, MySQL, HTML, CSS, JavaScript

Duration : 4 Months

Description : Developed a full-stack E-Commerce Web Application using HTML, CSS, JavaScript, Java, Spring Boot, and MySQL. Built RESTful APIs for user authentication, product management, shopping cart, and order processing. Integrated Spring Data JPA with MySQL for efficient data persistence and CRUD operations. Designed a responsive, secure, and scalable application to provide a seamless online shopping experience.

Title : Student Result Management System

Platform : Java, JDBC, MySQL

Duration : 1 Month

Description : Developed a console-based Student Result Management System using Java and MySQL. Implemented student record management, result processing, percentage and grade calculation, and database CRUD operations using JDBC. Applied OOP principles, exception handling, and database design concepts to create a complete academic result management solution.
