EDUCATION

Vidya Pratishthan's Kamalnayan Bajaj Institute of Engineering and Technology 2021-2025
B.E. in Artificial Intelligence and Data Science Baramati, Pune
CGPA: 7.74

INTERNSHIPS

EY-GDS Edunet Foundation | [Certificate Link](#) February 2024 - April 2024
Advance Data Analytics Intern (Power BI, Data Analytics) Remote location

- Implemented **Exploratory Data Analysis** on a Space Exploration Missions dataset using **Power BI**.
- Integrated and pre-processed data to improve accuracy, enabling insightful visualizations and analysis.

Cognifyz Technologies | [Certificate Link](#) January 2024 - February 2024
Data Science Intern (Jupyter notebook, ML, Data Science) Remote location

- Developed machine learning models (**Random Forest, Linear Regression, Decision Tree**) to predict restaurant ratings, achieving **94% accuracy** with Random Forest.
- Executed end-to-end data analysis including data cleaning, feature engineering, and visualization to uncover insights across cuisines and geographic locations.

PROJECTS

Classification of Fashion MNIST Using ANN | *Python*

- The project aims to classify images from the **Fashion MNIST dataset** into different clothing categories using a **Sequential Artificial Neural Network (ANN)** model.
- The model includes **dense layers** with **ReLU activations** and a **softmax output layer** for 10 categories.
- Training with **categorical cross-entropy** and evaluation gave an **accuracy of 96%**.

AI-ML Prognostic Model for Agri-Horticultural Price Variability | *Python, Numpy, Pandas, Statsmodel, Streamlit*

- Developed a 15-day price forecasting system for agri-horticultural commodities using **Linear Regression, ShallowNN** and **ARIMA** models (**R score = 0.95 approx**).
- Implemented **lag, rolling and many more features** for time series modeling; deployed forecasts in a **Streamlit** app with interactive visualizations and average price comparisons.

TECHNICAL SKILLS

Languages: Python, C++, SQL, HTML, CSS

Tools: PowerBI, MySQL, Jupyter, Colab, VS Code.

Concepts: DSA, Database Management Systems, Artificial Intelligence, Machine Learning, IoT, Data Science.

SOFT SKILLS

Communication, Adaptability, Team-work, Creativity, Leadership.

CERTIFICATIONS

NPTEL: Data Base Management System (Certificate link)

NPTEL: Python for Data Science (Certificate link)

NPTEL: Deep Learning (Certificate link)

EXTRA ACTIVITIES & ACHIEVEMENTS

- Swararang 2023:** Participated in Swararang 2023 and secured third prize in group Folk song.
- Music:** Committee head of college Music Club.
- Classical Music:** Currently learning classical music and have successfully passed the second-level exam.
- Traditional Representative:** Led T.E. AIDS class in Annual Cultural fest.
